

TEA2 Architects is looking for an intern with an undergraduate degree in architecture who would like to work in high-end residential design. Our firm of 20+ individuals provides great opportunities for first-hand experience in a team-oriented setting.

**ROLE:** Work is in a wide variety of areas, such as supporting Project Managers/Designers on project-related design and technical work, learning software to create, communicate, and coordinate the work, assisting our Principal with administrative and marketing duties and projects, and other miscellaneous office tasks. This variety of duties provides in-depth exposure to the wide range of tasks/ skills involved in the profession.

**QUALIFICATIONS & REQUIREMENTS:** We are looking for an individual holding an undergraduate degree in architecture who is planning to take at least one year off before going back to graduate school. Start date is flexible. This is a full-time position, though temporary part-time status may be considered for candidates who will be graduating from an undergraduate program in the spring.

**SUBMITTAL:** Please submit your resume and portfolio (portfolio not to exceed 15 pages) as a pdf. With your materials, please include all of the following information:

- Undergrad GPA
- Possible start date
- Date of graduation (if not yet done with undergrad)
- Anticipated date of return to grad school
