

TEA2 Architects is looking for an Architectural Intern seeking work in high-end residential design, and who currently has, or will be graduating this spring with, a professional degree in architecture (MArch or BArch). Our firm of 25 individuals provides great opportunities for first-hand experience in a team-oriented setting.

ROLE: Work closely with Principals & Project Managers to learn the process of developing and producing projects through each phase of the work. Become proficient in software to create, communicate, and coordinate the work.

QUALIFICATIONS & REQUIREMENTS: We are looking for an individual holding a professional degree in architecture (MArch or BArch) with 0-4 years of professional experience. Previous work experience in high-end, single-family residential preferred.

CAD, Microsoft Office and 3D modeling including Sketch-up experience strongly preferred. Experience with Photoshop, Microstation and Enscape a plus.

Start date is flexible but would ideally be within the next few weeks. This is a full-time career position with potential growth opportunities.

SUBMITTAL:

- Resume / CV
- Portfolio (not to exceed 15 pages) either as a hard copy or as a pdf.
- Possible start date
- Graduate GPA
