

Do you love putting things together? Resolving details? Solving problems? Do you find it satisfying to create a great, tight set of documents? We do too! And we have challenging, fun projects to do it with!

**ROLE:** Our firm of 20+ individuals is looking for an individual with strong problem-solving and critical thinking skills that can be a part of and/or lead a team in the development and production of our technical work. We are known for high quality design as well as our uniquely custom and well-detailed projects. This work is both challenging and engaging, making each day far from routine. This technical position requires the ability to work in a wide variety of styles, materials and configurations, while maintaining the high quality and unique character of the work. The right candidate could either be someone who can step right into this role, or someone who could grow into the role over time with mentorship. Significant technical responsibilities and leadership opportunities are available.

**QUALIFICATIONS & REQUIREMENTS:** Bachelor's degree in either architecture or other non-architectural discipline. Minimum 2 years of experience in an office setting putting together construction documents. Residential background preferred, but not required. Start date is flexible. This is a full-time career position with potential growth opportunities.

**SUBMITTAL:** Please submit your resume, including a cover letter explaining why you are interested in this position with our firm.
